

Join ATP in August for:

What Defines *Your* Network?

SDN, NFV, and Other Acronyms You Need to Know

Once upon a time, we had traditional networks with static architecture, and we managed them in very conventional ways.

That was a long time ago in an IT world that's far, far away.

SDN: Software-Defined Networks

In ATP's August seminar, we'll explore how changing network infrastructure has changed the way we manage those networks. Our program will include:

Andrew White, Chief Technologist for NFV in the Americas, HP Enterprise.
His topic:

Today's cloud-native technologies, software defined networks (SDN), and network functions virtualization (NFV) software can provide a single composable infrastructure. The result? Companies can rethink their supply chains, resulting in flexible, multi-purpose data centers and increased service velocity.

This presentation will outline these business trends, highlight the architectural framework that is being standardized, and discuss how companies can take advantage of these disruptive technologies.

Our host for August is **CenturyLink**, a global communications, hosting, cloud, and IT services company. CenturyLink offers network and data systems management, Big Data analytics and IT consulting, and operates more than 55 data centers in North America, Europe and Asia. It also provides broadband, voice, video, data, and managed services over a 250,000-route-mile U.S. fiber network and a 300,000-route-mile international transport network.

Keep your industry knowledge on the leading edge by joining us for our August seminar. We'll see you there!

What Defines *Your* Network?

Where

CenturyLink, 4650 Lakehurst Ct, Dublin, OH 43016

When

Wednesday, August 10, 2016. Registration begins 10:30 a.m. Seminar begins at approximately 11:00 am and adjourns between 1:00 and 1:30 p.m., depending on questions.

Cost

FREE for the first guest from each member company
\$10/additional attendee from each member company
\$20/non-members

Pre-registration assists us in keeping our costs down, and provides a more accurate count for seating and lunch. Pre-register to be eligible for our door prize drawing!
