

# Trends in Mobility Management

## Event Info:

**When:** Wednesday, June 11, 2014. **Registration begins 10:30 a.m. Seminar begins at approx. 11:00 am and adjourns between 1:00 and 1:30pm depending on questions.**

## Where:

OCLC Inc.  
6565 Kilgour Pl.  
(previously Frantz Rd.)  
Kilgour Building - enter from the East and turn toward the cafeteria. We will begin in the private dining room.  
Free parking is available

## Fee:

**Free** for the first guest from each member company  
\$10/additional attendee from each member company  
\$20/non-members  
Pre-registration assists us in keeping our costs down, and provides a more accurate count for seating and lunch.

It seems like only yesterday that businesses wondered whether to allow BYOD. If a customer visited your business, they had no expectation of being online. And wi-fi availability was the exception, not the norm.

Today, most of us feel lost without our mobile device(s), and we expect to be online, everywhere, anytime. How is the business world coping with this culture change? Join ATP in June to find out!

We're pleased to feature two key speakers for this seminar. Kris Snyder is CEO of Vox Mobile, an enterprise mobility provider that manages more than 250,000 connections, over 950 servers and achieves First Call Resolution more than 89 percent of the time. As founder of Vox, Kris has a 20-year track record in managing dynamic environments. He has been part of executive teams for mature industries and start-up organizations. He was an E&Y Entrepreneur of the Year finalist in 2010 and 2011 and award winner in 2013.

Our second speaker is James Lovingood, Director of the Apple & Mobility Professional Services Team at PCM (formerly SARCOM). James has more than 10 years of experience in IT administration, and offers a solid understanding of the broad scope of technologies required to manage mobility in widely divergent customer environments.
