

Wednesday, February 14th 11am-1pm  
SD-WAN Seminar hosted by Integrated Building Services (IBS)  
950 Michigan Avenue, Columbus 43215  
11am-1pm  
Lunch included  
Members \$10/Non-members \$20

### Why SD-WAN?

- 60% of workload will be off-loaded to the cloud this year
- 78% of organizations experience [shadow IT](#)

Wednesday, February 14th  
11am-1pm

SD-WAN Guest Speaker:  
Louie Belt, CCIE #7054  
Principal Solution Architect  
Pomeroy

Louie graduated from Murray State University with a B.S. Degree in Engineering Physics. He has worked in the IT industry for the past 27 years including stints at

Pride Technologies and MicroAge before coming to Pomeroy. He has spent the last 17 at Pomeroy where he helped build and develop their Networking, Collaboration and Unified Communications practices. Currently Louie serves as Pomeroy's Managing Director of Solutions Architecture and Professional Services as well as being their Principal Solutions Architect.
