Dear Friends and Guests of ATP,

Confidentiality. Data Privacy. Access Control. Who is who, who sees what, who gets what and who knows what are all facets of identity management in the workplace..and all increasingly in the realm of technology professionals.

Join us for our August seminar to learn more about this important topic. We've lined up speakers who will review key components of an identity management plan, including Kick-Off, Discovery, Assessment and Road Map development.

Among the speakers will be Paul Bedi, Managing Director of IDMWorks. With more than 20 years experience in the technology industry, Mr. Bedi is currently responsible for managing the consulting practice for Identity Management and Security. He holds a bachelor's degree in computer science from the University of Western Ontario, as well as an Executive MBA from Pepperdine University.

Register now for August 14, 2013. The meeting will kick off at 11:00 A.M. with registration beginning at 10:30 A.M. This is an easy, affordable opportunity for learning, lunch and networking. We look forward to seeing you.

Sincerely,

Nancy Tiemeier
ATP President, 2013

For more than 20 years, the Association of Technology Professionals, Inc., (atp) has been promoting effective design, operation, and management of technology, telecommunications systems and networks.

atp provides a vendor-neutral, unbiased forum for members to exchange ideas, innovations and applications at bi-monthly meetings. The meetings, in turn, establish a community for common interest and promote personal advancement within the telecommunications profession.
