Dear Gina,

When ATP was founded as the Association for Telecommunications Professionals in 1986, the world was a far different place. Over the past 28 years, a lot more than our name has changed. Where does telecom fit into organizations today? Perhaps more importantly, what's down the road for the telecom industry? We invite you to join ATP in August for the answers to these questions and more!

We'll return to our popular roundtable format to hear from a variety of major telecom players (watch for specific names in future announcements). In addition to brief presentations on the state of the industry and the future roadmap, we'll also have plenty of time for Q&A...so be ready for a lively discussion .

NOTE: this meeting will be held at the Conference Center at OCLC...still on the OCLC campus but lots more parking!

Plan now to join us on August 13, 2014. The meeting will kick off at 11:00 A.M. with registration beginning at 10:30 A.M. This is an easy, affordable opportunity for learning, lunch and networking. We look forward to seeing you.

Sincerely,

Laura Engle
ATP President, 2014

For more than 20 years, the Association of Technology Professionals, Inc., (atp) has been promoting effective design, operation, and management of technology, telecommunications systems and networks.

atp provides a vendor-neutral, unbiased forum for members to exchange ideas, innovations and applications at bi-monthly meetings. The meetings, in turn, establish a community for common interest and promote personal advancement within the telecommunications profession.
