Dear Friends and Guests of atp,

The way businesses communicate is changing every day. We are going to explore how the SMART Board technology is helping businesses be successful. We will discuss how it's helping companies to:

- Increase Productivity
- Boost Cost Effectiveness
- Streamline Processes

We will highlight some of the advancements in collaborating with SMART Boards and iPads, and also touch upon the new SMART/Lync integration. We will have a live demonstration of this great technology.

Our speaker will be Sabrina Bently with Advantiem, a Division of Cleveland Corporate Services. She is a Collaboration Specialist with nearly a decade of experience showing people how to make their meetings more effective and collaborative. She has worked with most of the school districts in Ohio to help transform their classrooms in the 21st century

Please remember that the meeting will begin at 11:00 A.M. with registration beginning at 10:30 A.M. Plan now to join us for learning, lunch and networking. We look forward to seeing you.

Sincerely,

Nancy Tiemeier
ATP Vice-President

For more than 20 years, the Association of Technology Professionals, Inc., (atp) has been promoting effective design, operation, and management of telecommunications voice and data systems.

atp provides a vendor-neutral, unbiased forum for members to exchange ideas, innovations and applications at bi-monthly meetings. The meetings, in turn, establish a community for common interest and promote personal advancement within the telecommunications profession.
