Friends and Guests of ATP,

We're closing out the year with not one, but two great topics for our December seminar. Both speakers will focus on how emerging trends and technology are reshaping the world in which we work. Join us to learn how to keep up...or be left behind.

Our first speaker, Tara

Houdeshell of Muskingum University, reminds us that the world as we know it is changing at a rapid pace. Our population is aging. Our workforce is more diverse than ever. Technology is dated long before it becomes mainstream. Information is available to us more quickly and more often than ever before. The workplace is increasingly demanding its employees to critically think and innovate.

Knowing this is not enough. More important is knowing how you will maintain your own personal relevance and competitive advantage in the rapidly changing world around you. How will you help lead your staff to the same end?

Our second speaker, Holly Solomon of Expand Socially, will give us an updated look at the ever-changing world of social media. Approaching the topic from IT's perspective, Holly will discuss compliance, enterprise social media tools, and more.

Save the date now for December 11, 2013. The meeting will kick off at 11:00 A.M. with registration beginning at 10:30 A.M. This is an easy, affordable opportunity for learning, lunch and networking. We look forward to seeing you.

Sincerely,

Nancy Tiemeier
ATP President, 2013

For more than 20 years, the Association of Technology Professionals, Inc., (atp) has been promoting effective design, operation, and management of technology, telecommunications systems and networks.

atp provides a vendor-neutral, unbiased forum for members to exchange ideas, innovations and applications at bi-monthly meetings. The meetings, in turn, establish a community for common interest and promote personal advancement within the telecommunications profession.
