### Pre-register at:

[www.atp-ohio.org](http://www.atp-ohio.org)

It's hard to believe that the ubiquitous service we've come to know as "broadband" is less than 15 years old. How has the technology grown and changed in that time? What is the current state of broadband in Central Ohio? Are there things you can do to improve access to the service your customers and employees now assume will be there?

Join ATP in February as we discuss these questions and more, taking a fresh look at this unassuming topic. Our speakers will include:

**Stu Johnson, VP of Digital Works.** Digital Works is a Connected Nation program that provides training for the 21st century workforce. Stu provides comprehensive strategy and management of the program and also serves as the primary spokesperson to media nationwide regarding Digital Works. Connected Nation

builds relationships with cities, landowners and cell tower providers to increase broadband coverage in local communities.

Plan now to join us on February 10th, 2016. The meeting will kick off at 11:00 A.M. with registration beginning at 10:30 A.M. This is an easy, affordable opportunity for learning, lunch and networking. We look forward to seeing you.
