Pre-registration assists us in keeping our costs down, and provides a more accurate count for seating and lunch. **Pre-register to be eligible for our door prize drawing!**

Pre-register at:
www.atp-ohio.org

Dear Friends and Guests of ATP,

If you haven't registered yet for ATP's October meeting, it's one you won't want to miss. More services are available in the cloud today than ever before. And more companies are cutting loose their server ties to take advantage of them.

Our guest speakers will include Shannon Scherr of Mitel, who has over 17 years experience in the telecom/VoIP/Hosted industry. A strategic problem solver, Shannon has helped companies save from 10%-50% with cloud and other strategies. She'll share real-world examples of how "communications in the cloud" platforms can be highly scalable and loaded with highly desirable services like mobile twinning, business continuity routing and a web-based user portals.

We'll also hear from Ric Barrera, who's been a systems engineer with Cisco for more than 14 years. Ric will discuss architecture, deployment and scaling issues with cloud deployments as well as giving an overview of the current Cisco cloud collaboration suite.

I hope we'll see you on October 9, 2013. The meeting will kick off at 11:00 A.M. with registration beginning at 10:30 A.M. This is an easy, affordable opportunity for learning, lunch and networking. Why not join us?

Sincerely,

Nancy Tiemeier
ATP President, 2013

For more than 20 years, the Association of Technology Professionals, Inc., (atp) has been promoting effective design, operation, and management of technology, telecommunications systems and networks.

atp provides a vendor-neutral, unbiased forum for members to exchange ideas, innovations and applications at bi-monthly meetings. The meetings, in turn, establish a community for common interest and promote personal advancement within the telecommunications profession.
