Pre-register at:
www.atp-ohio.org

Dear Friends and Guests of ATP,

OSU President Gordon Gee recently stated that education should be considered, not K-12, but K-Life. His reasons include the fact that technology has made continued learning more accessible and affordable.

Join us as we explore how technology continues to change the face of how we learn. Our speakers for this June seminar will be:

- Greg Syferd, Systems Administration Manager for Columbus Metropolitan Libraries
- Victoria Burwell, SVP and Chief Marketing Officer, PreK-12, McGraw-Hill

We also look for lively audience discussion, and strong takeaways regarding the education of our current and future workforce. The meeting will begin at 11:00 A.M. with registration starting at 10:30 A.M. This is an easy, affordable opportunity for learning, lunch and networking. We look forward to seeing you.

Sincerely,

Nancy Tiemeier
ATP President, 2013

For more than 20 years, the Association of Technology Professionals, Inc., (atp) has been promoting effective design, operation, and management of technology, telecommunications systems and networks.

atp provides a vendor-neutral, unbiased forum for members to exchange ideas, innovations and applications at bi-monthly meetings. The meetings, in turn, establish a community for common interest and promote personal advancement within the telecommunications profession.
